Variety: Chardonnay

Soils: Marly limestone rock

Surface: 2.9 acres

Vines Planted: 1972

Oak Aging: 12 months in 60–65%
new oak

Ruchottes was the domaine's first vineyard, purchased in 1930, and continues to be a standout site with only a few producers sourcing from it. Located just north of La Romanée, the plot sits on a serious slope similar to nearby *grands crus* and produces serious wines with richness and complexity. Seductive and opulent textures with ripe fruit flavors of pear and white peach have a persistent finish. Will continue to develop in the bottle for decades.
